Reference: Letter of Recommendation – Jason Stockton - Katy Paint Pro

To Whom It May Concern:

I have known Jason Stockton since June of 2006. During the time I have known him I have had the privilege to observe Jason's maturity and integrity. We have worked together on several projects. He has proven to me that he is conscientious, reliable, determined, and timely in his commitments.

For the greatest part of our friendship and relationship we have worked together along with others performing a wide array of construction projects both commercial and residential. Jason's knowledge and experience have grown him into a fine contractor.

I would highly recommend Jason because of the positive and successful experiences I have personally had with him and his company. He maintains a positive attitude, and in negative situations that sometime occur on projects his developed resilience and capable experience have proven he is able to overcome unexpected adverse circumstances.

Should you desire to discuss my knowledge of Jason Stockton's character or abilities, please feel free to call me at 713-213-5654.

Sincerely,

Michael A. Corbin
